

March 15, 2024

Dear Churches and Supporters,

Situated in Ashland County, the Round Lake Golf Course was originally opened in 1928. In 2015, the course was scheduled to close. At that time, conversations began between Round Lake Christian Camp and the former owners of the course. The camp ultimately purchased the course, running it as a nonprofit golf course from 2015-2023.

After much prayer and discussion, the camp moved to sell the course at the conclusion of the 2023 golf season. A variety of factors were involved in this decision, including recent staffing transitions and other operational logistics.

It has been an honor to provide a nonprofit golf course to the local community over the past eight years as an extension of the camp's ministry. We would like to thank all of the individuals, businesses and churches who have been a part of this unique opportunity.

The sale of the Round Lake Golf Course was finalized earlier this month, and we are pleased to share that the new owner has indicated he intends to continue operating the property as a golf course.

Following the sale, the camp is paying off its remaining debt and will soon be operating debt-free. Any remaining funds from the sale will be prayerfully reinvested into the ministry of the camp to further the camp's mission of being "a unique place where the Gospel of Jesus Christ is experienced."
